

МИНИСТЕРСТВО НАУКИ И ВЫСШЕГО ОБРАЗОВАНИЯ РОССИЙСКОЙ ФЕДЕРАЦИИ

(МИНОБРНАУКИ РОССИИ)

Тверская ул., д.11, стр. 1, 4, Москва, 125009, телефон: (495) 547-13-16,
e-mail: info@minobrnauki.gov.ru, <http://www.minobrnauki.gov.ru>

18.04.2023 № МН-12/966 Руководителям научных
и образовательных организаций,
На № _____ от _____ подведомственных Минобрнауки России

Об участии в конкурсе ASPIRE

Департамент международного сотрудничества Минобрнауки России информирует о том, что в настоящее время по линии Политического партнерства по науке, технологиям и инновациям форума «Азиатско-Тихоокеанское экономическое сотрудничество» (АТЭС) проводится отборочный этап ежегодного конкурса ASPIRE (премия АТЭС в области инноваций).

Целью указанного мероприятия является укрепление международных научно-технических связей, стимулирование экономического роста и наращивание инвестиционных возможностей путем популяризации проведения научно-исследовательских и опытно-конструкторских работ (НИОКР), а также обмена опытом в сфере производства инновационных решений. Конкурс призван привлечь внимание к новаторским инициативам перспективных молодых ученых из экономик Форума.

Тематика 2023 года «Инклюзивные наука, технологии и инновации для формирования устойчивой окружающей среды» включает в себя вопросы повышения региональной устойчивости путем формирования инклюзивной научной среды, содействия продовольственной безопасности и развитию биотехнологий в области сельского хозяйства, а также смягчения последствий климатических изменений.

Каждой экономике предлагается выдвинуть одного молодого ученого (до 40 лет) для соискания премии. Номинантам необходимо презентовать информацию о своих научных публикациях, а также представить

международный опыт сотрудничества с учеными из экономик АТЭС в следующих областях: биология, химия, экология, океанография, здравоохранение, социальные науки и другие направления (подробная информация о конкурсе и критериях отбора прилагается). Призовой фонд указанного конкурса составляет 25 тыс. долл. США.

При определении кандидатов на конкурс от организации просим в первую очередь руководствоваться принципами объективной оценки накопленного научного опыта и уровня квалификации предполагаемых участников. Обращаем внимание, что от Российской Федерации будет выдвинут один номинант, отобранный по итогам внутренней процедуры рассмотрения.

В случае заинтересованности информацию о кандидатуре, в частности заполненную анкету номинанта в редактируемом формате, краткую биографию, фото кандидата и одно рекомендательное письмо, подписанное руководством организации, необходимо представить в адрес Довмальян Кристины Гарриевны (e-mail: dovmalyankg@minobrnauki.gov.ru) не позднее 15 мая 2023 года. Обращаем внимание, что весь пакет документов составляется на английском языке.

Приложение: на 16 л. в 1 экз.

С уважением,

Врио директора Департамента
международного сотрудничества

Е.М. Горожанкина

APEC SCIENCE PRIZE for INNOVATION, RESEARCH and EDUCATION (ASPIRE)

OVERVIEW

The APEC Science Prize for Innovation, Research and Education (“ASPIRE”) is an annual award which recognizes young scientists who have demonstrated a commitment to both excellence in scientific research, as evidenced by scholarly publication, and cooperation with scientists from other APEC member economies, including inclusive and interdisciplinary collaborations.

The ASPIRE Prize supports APEC’s mission to:

- Strengthen international science and technology networks;
- Enhance economic growth, trade and investment opportunities in harmony with sustainable development, through policies, innovative R&D and technologies, and knowledge sharing; and
- Improve linkages and efficiency between research and innovation.

ASPIRE 2023 NOMINATION THEME: INCLUSIVE SCIENCE, TECHNOLOGY, AND INNOVATION FOR A RESILIENT AND SUSTAINABLE ENVIRONMENT

Each year the APEC host economy is asked to provide a theme to guide nominations for the ASPIRE Prize to be awarded in their host year. For its host year of 2023, the United States selects the ASPIRE Prize theme: “Inclusive Science, Technology, and Innovation for a Resilient and Sustainable Environment.”

This theme focuses on advancing environmental resiliency and sustainability through science, technology, and innovation that centers on diverse perspectives, and promotes an inclusive scientific ecosystem. Unlocking the diversity of thought and experience can expand the boundaries of scientific knowledge, which is vital to fundamental research and underpins resilient and sustainable solutions to global environmental and societal challenges.

The theme highlights scientific research dedicated to inclusivity at all stages of career development. This goal additionally incorporates all facets of society in an effort to shape a more balanced world. This may include research that encourages the increased societal connectivity of underserved and marginalized populations, promotes self-sustaining ecosystems, or achieves solutions to mitigate public health risks. Action toward this end may take various forms: enhancing climate mitigation and resilience; reducing disaster risk; promoting food security, safety, and agriculture biotechnology; tackling environmental challenges; or fostering an enabling environment to accomplish these goals. Nominees should demonstrate a commitment to excellence in scientific research and cooperation with scientists from other APEC member economies, including inclusive and interdisciplinary collaborations in subjects such as: biology, oceanography, chemistry, environmental science, public health, economics, data sciences, social sciences, and other relevant fields.

ELIGIBILITY

Any citizen of an APEC member economy is eligible to be nominated for the ASPIRE Prize. He/she must be at the time of his/her nomination and be under the age of 40 as of 31 December of that year (i.e., all 2023 nominees must be under the age of 40 as of 31 December 2023).

SELECTION PROCESS

Each member economy, through its representative on the APEC Policy Partnership for Science, Technology and Innovation (PPSTI), is invited to nominate one young scientist under the age of 40 to be considered for the 2023 ASPIRE Prize.

Once nominations are received, PPSTI members rank the nominees through a selection ballot to determine the winner. PPSTI members are asked to judge the nominees based on how well they have demonstrated:

- Excellence in scientific research, as evidenced through scholarly publication;
- Commitment to cooperation with scientists from other APEC member economies; and
- Contribution to the theme of “Inclusive science, technology, and innovation for a resilient and sustainable environment.”

ASPIRE PRIZE SPONSORS

Wiley and Elsevier, two of the world’s leading publishers of scholarly scientific knowledge, have generously committed to funding prize money in the amount of \$25,000 USD.

PREVIOUS ASPIRE PRIZE WINNERS

2022: Transformation to a Bio-Circular-Green Economy

Dr Jingzheng Ren, an industrial and systems engineer from Hong Kong, China, was awarded the 2022 ASPIRE Prize at an in-person ceremony in Chiang Mai, Thailand. Dr. Ren is an Assistant Professor at the Hong Kong Polytechnic University. His research is focused on decision-making for economic, industrial, and social systems. He has developed new methods to promote harmonious development of the economy, environment, and society. He has collaborated with scientists in 12 APEC economies and has been published in over 183 scientific journals.

2021: Diverse Knowledge for a Sustainable Future

Dr Jessica Bogard, a dietitian and public health nutritionist from Australia, was awarded the 2021 ASPIRE Prize, for her research focusing on boosting the potential of underutilized local and indigenous food to reduce malnutrition, particularly among pregnant women and young children. Dr. Bogard pioneered the development of a database of nutritional quality of more than 50 species of fish and aquatic food and found that certain indigenous species of fish are rich sources of a multitude of micronutrients, but their availability is declining. She is a research scientist at the Commonwealth Scientific and Industrial Research Organisation (CSIRO) Australia.

2020: Biodiversity for a Prosperous Economy

Dr. Huai Chen was awarded the 2020 ASPIRE Prize at an online ceremony by Dr. Siti Hamisah Tapsir, Secretary General, Ministry of Science, Technology and Innovation (MOSTI) Malaysia. Dr. Chen is a professor at Chengdu Institute of Biology, Chinese Academy of Sciences. His research is focused on wetland biodiversity and nature’s contribution to people. Dr. Chen’s findings lead to a better understanding of these wetlands including protecting, developing new generation models for methane emissions and enhancing assessment of carbon storage and ecological value.

2019: Natural Laboratories

Dr. Yun Hau NG was awarded the 2019 ASPIRE Prize in Puerto Varas, Chile by Dr. Nicole Ehrenfeld, Director, Scientific Initiative Millennium, Ministry of Economy, Chile. Dr. Ng is an associate professor at the School of Energy and Environment, City University of Hong Kong, China. His research is focused on the development of highly efficient photocatalytic systems to mimic natural photosynthesis to produce clean hydrogen from water. In short, he uses sunlight to split water into clean hydrogen.

2018: Smart Technologies for Healthy Societies

Dr. Madhu Bhaskaran of Australia was awarded the 2018 ASPIRE Prize in Port Moresby by Hon. Pila Niningi, Minister for Higher Education, Research, Science and Technology of Papua New Guinea. Dr. Bhaskaran is a professor at RMIT University, Melbourne, Australia where her work transforms the way we imagine, use and interact with electronic devices and sensors. She has developed ways to combine functional oxide materials processed at high temperatures with elastic and plastic materials. Her work has led to the development of wearable elastic electronics and sensors, including gas and UV sensors and flat optical devices—all of which are stretchable, optically transparent and as thin as a nicotine patch.

2017: New Material Technologies

Dr. Yanwu Zhu of China was awarded the 2017 ASPIRE Prize in Ha Noi by Deputy Minister of Science and Technology of Viet Nam, Tran Quoc Khanh. Dr. Zhu is a Professor at the University of Science and Technology of China where he researches the fields of nanomaterials and specifically new carbon materials. His publications have been widely cited and his research with other APEC scientists has been applied in large-scale production of graphene materials.

2016: Technologies for Food Security

Dr. Hua Kuang of China was awarded the 2016 ASPIRE Prize in Lima by Dr. Gisella Orjeda, President of the Peruvian National Council for Science, Technology and Technological Innovative (CONCYTEC). Dr. Kuang is a Professor at Jiangnan University's School of Food Science and Technology in Wuxi, China, where she works with researchers in other APEC economies to develop low-cost biosensors that detect food sanitation hazards. Her patented technologies have been used to improve food safety for millions in China and elsewhere.

2015: Disaster Risk Reduction: Understanding the Role of Climate Change and Variability

Dr. Jong-Seong Kug of Korea was awarded the 2015 ASPIRE Prize in Manila by Secretary Mario Montejo of the Philippine Department of Science and Technology. Dr. Kug is an Associate Professor at Pohang University of Science and Technology's School of Environmental Science and Engineering in Korea, and his El Niño prediction model has helped the Korea Meteorological Administration better understand tropical climate dynamics, and forecast and track extreme weather—an area that addressed Philippines' theme of "Disaster Risk Reduction: Understanding the Role of Climate Change and Variability."

2014: Intelligent Transportation

Dr. Agachai Sumalee, a Thai professor at the Hong Kong Polytechnic University, was awarded the 2014 ASPIRE Prize by Cai Jianlin, China’s Vice Minister of Science and Technology. China selected the theme of “Intelligent Transportation” to reflect China’s interest in facilitating green and sustainable growth, environmental protection and low-carbon economies. Dr. Sumalee designed a model in collaboration with researchers from across the APEC region that allows highway managers to predict traffic conditions and prevent congestion. This led to ground breaking road traffic management system that slashed commuting times in the greater Bangkok area.

2013: Sustainable Ocean Development

In 2013 the ASPIRE Prize was awarded by Gusti M. Hatta, Indonesia’s Minister of Research and Technology, to Dr. Carissa Klein of Australia. Dr. Klein’s research with the University of Queensland uniquely addressed the 2013 ASPIRE nominating theme of “sustainable ocean development” by striking a balance between biodiversity conservation and socioeconomic viability. Her work has helped two APEC member economies—Malaysia and the United States—sustainably zone the ocean for fishing and conservation.

2012: Health Innovation

Dr. Rossa Wai Kwun Chiu of Hong Kong, China was awarded the 2012 ASPIRE Prize. Russia selected “health innovation” as its ASPIRE nominating theme, building on its desire that APEC actively foster cooperation among economies in major innovation areas, such as human health, to support healthy lifestyles, productivity and economic growth. Dr. Chiu’s groundbreaking research and innovations in chemical pathology has brought non-invasive prenatal diagnosis of fetal genetic diseases into routine clinical use around the world.

Asia-Pacific
Economic Cooperation

2011: Green Growth

In 2011 the ASPIRE Prize was awarded by Nobel Laureate and U.S. Secretary of Energy Steven Chu to Dr. Ali Javey of the United States. The United States selected “green growth” as its ASPIRE nominating theme, building on its desire that APEC actively promote environmentally sustainable economic growth and development, and help our economies successfully transition to a clean energy future. Dr. Javey’s innovative work with nanomaterials has made great strides in developing a new generation of solar energy technology and reducing energy consumption in “green electronics.”

2023 APEC Science Prize for Innovation, Research and Education

LOCAL NOMINATION FORM FOR THE RUSSIAN FEDERATION

DUE DATE: 15 MAY 2023

ASPIRE 2023 Letter to Local Educational and Research Institutions

Dear [NAME]:

It is with great enthusiasm that we announce that nominations are being sought to represent Russia for the 2023 APEC Science Prize for Innovation, Research and Education (ASPIRE Prize). Sponsored by Wiley and Elsevier, two of the world's leading publishers of scholarly scientific knowledge, the ASPIRE Prize is an annual award that recognizes young scientists who have demonstrated a commitment to both excellence in scientific research and cooperation with scientists from other APEC member economies.

Russia may nominate one young scientist from Russia under the age of 40 to be considered for the 2023 ASPIRE Prize. These finalists will then be considered by the full APEC Policy Partnership for Science, Technology, and Innovation (PPSTI) for selection as the 2023 ASPIRE Prize winner, with prize money in the amount of \$25,000 USD. We encourage your institution to use the enclosed "NOMINATION FORM" to send us distinguished young scientists for consideration by 15 May 2023.

Each year the APEC host economy is asked to provide a theme to guide nominations for the ASPIRE Prize to be awarded in their host year. For its host year of 2023, the United States selects "Inclusive science, technology, and innovation for a resilient and sustainable environment" as the ASPIRE nominating theme.

Nominees should demonstrate a commitment to excellence in scientific research and cooperation with scientists from other APEC member economies, including inclusive and interdisciplinary collaborations, in subjects such as: biology, chemistry, environmental science, physics, mathematics, economics, social sciences and other relevant fields.

We thank you for your institution's contributions to the APEC region's scientific community and look forward to reviewing your nominees.

Best regards,

Ms. Yang Xuemei
PPSTI Chair
Ministry of Science and
Technology (MOST)

Ms. Jessica Sebeok
Vice President for Global
Government Partnerships & Public
Policy
Wiley
ASPIRE Prize Sponsor

Ms. Ann Gabriel
Senior Vice President, Global

Elsevier
ASPIRE Prize Sponsor

ASPIRE 2023 Nomination Form

INSTRUCTIONS: Thank you for your interest in being selected to represent Russia for the 2023 ASPIRE Prize. Please send all required documents below and submit to Ms. Kristina Dovmalyan (dovmalyankg@minobrnauki.gov.ru)

REQUIRED DOCUMENTS:

- 1) Nomination form;
- 2) Nominee's Curriculum Vitae;
- 3) One letter of recommendation for consideration;
- 4) A photo of nominee (image must be larger than 250*300 pixels)

THE DEADLINE IS: 15 MAY 2023

| | |
|--|-------------|
| SECTION 1 OF 5 - Nomination Statement (up to 300 words): Please describe how the nominee has demonstrated excellence in scientific research in the field of "Inclusive science, technology, and innovation for a resilient and sustainable environment" and cooperation with scientists from other APEC member economies. Please also include 1-3 "tweets" that could be published on Twitter summarizing the nominee's research. | |
| | |
| SECTION 2 OF 5 - Nominee Information | |
| Member Economy: | |
| Last Name: | First Name: |
| Date of Birth (day/month/year): | |
| Address: | |
| | |
| Telephone: | Email: |
| Title: | |
| Institution/Affiliation: | |

Field of Research:

SECTION 3 OF 5 - List of Peer Reviewed Scholarly Publications: Please list the nominee's peer reviewed publications (publication titles should be translated into English). The nominee's record of scholarly publication will be evaluated on its merits, and nominees are encouraged to include publications regardless of the publisher. Please continue onto separate page if necessary.

Please denote which scholarly publications include co-authors from APEC member economies, for example:

1. A.S. Barnard, H. Konishi, H. Xu, 'Morphology mapping of platinum catalysts over the entire nanoscale', *Catal. Sci. & Tech.* (2011) accepted [**APEC Authors**]
2. H. Guo, A.S. Barnard, 'Computational challenges in accurate modeling of iron oxides and oxyhydroxides, and the prediction of environmentally sensitive phase transformations', *Phys. Rev. B*, 83 (2011) 094112
3. L.Y. Chang, E. Osawa, A.S. Barnard, 'Confirmation of the electrostatic self-assembly of nanodiamonds', *Nanoscale*, 3 (2011) 958 [**APEC Authors**]

SECTION 4 OF 5 - Other Awards/Achievements/Contributions to market-led innovations: Please list below in English; please continue onto separate page if necessary.

Please denote which, if applicable, have a connection to other APEC member economies.

Asia-Pacific
Economic Cooperation

| |
|--|
| |
|--|

SECTION 5 OF 5 – Local Nominator Information (If Nomination Form is submitted by the nominee himself or herself, do not fill out this section)

| | |
|-------------------------------|-------------|
| Last Name: | First Name: |
| Telephone: | Email: |
| Relation to Nominee (if any): | |
| Title: | |
| Institution/Affiliation: | |
| Nominator Signature (typed): | |

Remember to include the following attachments along with this Nomination Form:

- **Nominee’s Curriculum Vitae**
- **One letter of recommendation**
- **Photo of nominee (image must be larger than 250*300 pixels):**

2023 APEC Science Prize for Innovation, Research and Education

EXAMPLE APPLICANT REVIEW SHEET

Note: After receiving local nominations within the APEC economy, it is suggested that the PPSTI representative establish a panel to judge the applications and select one nominee.

ASPIRE 2023 Example Applicant Review Sheet

Candidate Name:

Nominating Institution:

TOTAL SCORE:

Candidate meets eligibility requirements:

- Yes, candidate will be under the age of 40 as of December 31, 2023.
- Yes, candidate is a citizen of an APEC economy.

Criteria 1: Excellence in scientific research as evidenced by scholarly publication (10 being the highest and 1 being the lowest)

| | | | | | | | | | |
|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|
| 1 ○ | 2 ○ | 3 ○ | 4 ○ | 5 ○ | 6 ○ | 7 ○ | 8 ○ | 9 ○ | 10 ○ |
|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|

Comments:

Criteria 2: Cooperation with scientists from other APEC member economies

| | | | | | | | | | |
|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|
| 1 ○ | 2 ○ | 3 ○ | 4 ○ | 5 ○ | 6 ○ | 7 ○ | 8 ○ | 9 ○ | 10 ○ |
|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|

Comments:

Criteria 3: Contribution to this year's theme of "Inclusive science, technology, and innovation for a resilient and sustainable environment"

| | | | | | | | | | |
|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|
| 1 ○ | 2 ○ | 3 ○ | 4 ○ | 5 ○ | 6 ○ | 7 ○ | 8 ○ | 9 ○ | 10 ○ |
|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|
